

RETAIL Price List - Valid From June 2017

Toroidal isolation power conditioners by Torus Power are the world's finest clean power source for audio, video, automation and control systems. Dramatically increasing performance levels of connected AV components from video displays to speakers, Torus Power Isolation Transformers utilise Plitron Manufacturing's patented NBT technologies and medical-grade toroidal isolation transformers to eliminate virtually all power-line noise artifacts and protect equipment from damaging AC power line events, while increasing system reliability and extending product life.

TOT SERIES: Featuring an ultra-compact design with a unique sloped chassis profile the Torus TOT Series are compact, stand-alone power conditioners. Available in two power ratings, Mini and Maxi, TOT series models can be mounted on or behind a component rack (optional rack mount adapters are available). For custom installations, TOT series models can be mounted in-wall between 14" studs with an optional mounting kit. As an extra feature a USB-charger is included for smart phones, iPods, and tablets.

<p>TOT Mini UK</p> <p>The TOT Mini is suitable for providing Torus isolated power to components such as digital projectors, flat panels, powered speakers, media/source players, processors, or network devices.</p> <p>Output Current: 3A No. of Outlets: 3 Rack Height: 2U Weight: 11.4 kg Dimensions (H x W x D): 10.2 cm x 31.8 cm x 26.8 cm Available in White or Black Rackmount kit: IS4CERM</p>	£ 1,083.33	£ 1,300.00
		
TOT WP Factory installed Wall pan kit for TOT Mini - (B or W)	£ 333.33	£ 400.00
<p>TOT Max UK</p> <p>The TOT Max features a larger capacity toroidal transformer and can be used with most audio systems including mid-power amplifiers.</p> <p>Output Current: 8A No. of Outlets: 4 Rack Height: 2U Weight: 17.7 kg Dimensions (H x W x D): 10.2 cm x 31.8 cm x 36.8 cm Available in White or Black Rackmount kit: IS4CERM</p>	£ 1,458.33	£ 1,750.00
		
TOT 19" AVR, Max & Mini - Rack mount faceplate kit (B)	£ 66.67	£ 80.00
TOT 12" Max & Mini Deluxe faceplate kit (S or B)	£ 33.33	£ 40.00
Series Mode Surge Suppression Factory Fitted Surge Suppression Module upgrade.	£ 208.33	£ 250.00

RETAIL Price List - Valid From June 2017

RM SERIES: The original Torus Power models in the RM series remain unparalleled for performance, protection, and value, with models from 4 Amp to 16 Amp. Features include:

Noise Reduction: No External Components, patented Plitron transformer performs as low pass filter, attenuating noise from 2kHz to 1mHz, with attenuation of 12 db/decade to >1 meg kHz. **Inrush Current Limiting:** Transformer based inrush attenuation with no external components required. **Low Noise Transformer:** LONO transformer based technology removes audible power transformer noise under adverse line conditions, including DC offset and over-voltage, with no external components required. **Ultra Electrostatic Screen:** UST – A highly effective electrostatic screen which capacitively couples high frequency noise to ground while maintaining the best possible inter-winding transfer at power frequencies. **Surge Suppression:** Meets IEEE C62.41-1991: Series mode type; built to withstand 6000 volts, 3000 amps for 1000 repeats; with clamping voltage of 2 volts above peak nominal voltage.

RM 4 UK Output Current: 4A No. of Outlets: 3 Rack Height: 2U Weight: 19 kg Dimensions (H x W x D): 10.2 cm x 48.3 cm x 28.6 cm Available with 17" Silver or Black faceplate Rackmount kit: RM4CERK	£ 2,583.33	£ 3,100.00
		
RM 8 UK Output Current: 8A No. of Outlets: 5 Rack Height: 3U Weight: 34 kg Dimensions (H x W x D): 16.0 cm x 48.3 cm x 42.7 cm Available with 17" Silver or Black faceplate Rackmount kit: RM8CERK	£ 3,750.00	£ 4,500.00
		
RM 16 UK Output Current: 16A No. of Outlets: 6 Rack Height: 4U Weight: 54 kg Dimensions (H x W x D): 20.3 cm x 48.3 cm x 49.0 cm Available with 17" Silver or Black faceplate Rackmount kit: RM16CERK	£ 5,166.67	£ 6,200.00
		

RETAIL Price List - Valid From June 2017

AVR SERIES: Torus Power AVR provides Automatic Voltage Regulation to the standard Torus Power features, thereby enhancing protection against voltage sags, brownouts and surges. Ethernet connectivity and RS232 interface makes AVR models ideal for basic home monitoring applications. Features include:

Noise Reduction: No External Components, patented Plitron transformer performs as low pass filter, attenuating noise from 2kHz to 1mHz, with attenuation of 12 db/decade to >1 meg kHz. **Inrush Current Limiting:** Transformer based inrush attenuation with no external components required. **Low Noise Transformer:** LONO transformer based technology removes audible power transformer noise under adverse line conditions, including DC offset and over-voltage, with no external components required. **Ultra Electrostatic Screen:** UST – A highly effective electrostatic screen which capacitively couples high frequency noise to ground while maintaining the best possible inter-winding transfer at power frequencies. **Surge Suppression:** Meets IEEE C62.41-1991: Series mode type; built to withstand 6000 volts, 3000 amps for 1000 repeats; with clamping voltage of 2 volts above peak nominal voltage. **Interfaces:** RS232, Ethernet Connectivity via built-in web browser. **Automatic Voltage Regulation (AVR):** Maintain stable output voltage of 240VAC \pm 10V for any input voltage ranging from 170 VAC to 270 VAC.

TOT AVR	£ 2,166.67	£ 2,600.00

The TOT AVR Series builds upon the compact and competitively priced TOT Series of Toroidal Isolation Transformer products, but adds Automatic Voltage Regulation (AVR) at a lower price point. AVR continuously monitors incoming voltage to ensure the voltage powering equipment is always operating at optimal levels. The TOT AVR meets both IEC and Neutrik standards, and shelf or rack mount configurations are available.

- Input voltage: 170 - 270V
- Output voltage: 220, 230 or 240V \pm 10V
- Rated output current: 4A
- Number of outlets: 3
- Power rating: 960VA
- Frequency: 50/60Hz
- Dimensions (H x W x D): 31.8 cm x 10.1 cm x 36.9 cm

<p>AVR 16 UK</p> <p>Output Current: 16A No. of Outlets: 6 Rack Height: 5U Weight: 56.7 kg Dimensions (H x W x D): 20.3 cm x 48.3 cm x 55.9 cm Available with Silver or Black faceplate Rackmount kit: AVR16UKRK</p>	£ 6,666.67	£ 8,000.00
		

RETAIL Price List - Valid From June 2017

AVR2 SERIES: The AVR2 series includes the most feature-rich models in the Torus Power line-up, with enhanced Ethernet control and monitoring features. Performance and protection remains consistent with other models in the Torus line. Additional features include:

Individually addressable outlet zones. Enhanced web browser interface. Automatic reboot feature: restarts routers and modems when internet connection is lost. **Scheduling features** allow automatic control (on/off) of any outlet zone according to the user-defined schedule. **Schedule parameters** allow for one-week repeating schedule, with up to six events per day for each controlled zone. Outlets can be sequenced for switch-on. Each zone can be operated by the schedule, or in real-time via the web browser. Schedule is followed even when internet connection is lost, as long as system power is maintained.
